

PRODUCT CATALOGUE 2024
For distributors

We are a company that has been in the cleaning products and cosmetics sector since the year 2000, gone into mass production by building a plant in 2014; and with the brand Shinex, which we had created through the experience gained within years and oriented by the consumer needs in the existing market, we are a company with wide range of general cleaning products, which are in compliance with European standards, that keeps the customer satisfaction and production a priority without sacrificing quality.

Our products that are registered with certificates of quality, which are recognized by both domestic and foreign authorities, and that have been through meticulous quality control before reaching you, do not only offer cleanliness, but also provide "Hygiene".

Research and Development investments, production facility equipped with latest technology, high quality products in compliance with World standards and goals that grow day by day has made Serun Kimya the leader in its sector.

Also, it has made a name for itself through advertisement and marketing activities both in national and international markets.

With our company's young and dynamic structure. service mentality that prioritizes consumer expectations. product development, promotion, publicity and advertising support we give in markets where our business partners are in, the brand Shinex hit stores on the front rows and became an irreplaceable brand.
